R2

At R2 we like to think we know a thing or two about bathrooms - we've been designing them for over 40 years.

Founded in the beautiful City of Bath, we have an in-house team of experienced product designers and an excellent reputation for customer service.

We know value is important to you but that shouldn't be at the expense of good design. That's why our furniture features fully coordinated pieces, made from quality materials, with soft close doors and drawers. Our taps are of the highest quality brass and are beautifully chrome plated. Our illuminated mirrors are IP44 rated for safe bathroom use.

So whether you're looking for a contemporary wall mounted bathroom or a fully integrated solution, look no further than R2.

platform furniture

platform features

Basin units

A versatile collection of bathroom furniture available in four sizes and two styles, with soft close drawers and doors. Practicality is at the heart of this design, with plenty of accessible storage space. A great example of modernist simplicity.

Finishes

The simple lines of the Platform unit are complemented by a palette of on-trend painted finishes. Keep things light with gloss white or light grey, go for the sophisticated subtle green hues of willow, or add a dramatic note with rich midnight grey.

Basins

Platform's ceramic basin echoes the uncomplicated design of the units and provides a generous wash space. Or for a truly luxurious look, opt for one of our six stylish countertop basins, with three countertop finishes options to pair with them offering a multitude of possible combinations.

Handles

Elevate this pared-back basin unit with your choice of two handle styles, available in matt black, brushed brass or chrome. A recessed option maintains the minimal aesthetic, while the pull handle design is very tactile and easy to use.

Please note: Brushed brass finish is only available for recessed handles.

In-Drawer Storage Options

Useful additional storage sets, including trays, open boxes and boxes with lids, allow you to make the most of your drawer space. Each element is crafted from solid wood.

strata solid surface worktops

Strata worktops are an ideal solution for those wishing for the aspirational look and feel of solid surface worktops, at a price to make it reality. Made from a solid 25mm sheet, the natural stone-like beauty of strata solid surface tops combined with a square edged profile makes them a perfect choice for your bathroom.

Being solid, strata can be cut to whatever size or shape your bathroom demands using standard woodworking tools, with no need to bond on finishing strips. Simply cut to the desired profile and sand down the end to a fine finish.

laminare worktops

High quality and very durable, the R2 range of laminate worktops has been specifically chosen to complement stow & muse furniture units.

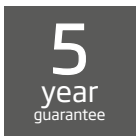

clad on panels

Clad on panels are available to allow you to create a framed look with Stow or Muse furniture. Alternatively cut to fit small voids and run a worktop over for a seamless wall to wall look.

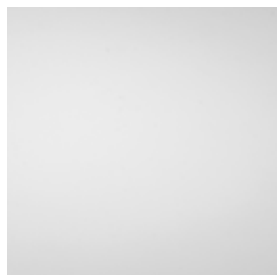

worktops and handles

Our strata solid surface and laminate worktops are designed to be used with our semi-countertop basins. Make your choice from our sanitaryware ranges from page 122.

Rimless WC options

close coupled sensor flush kits

With a simple wave of the hand, hygienic, contactless flushing is now here for close coupled WCs. Two sizes are available depending on the size of the flush button hole in the cistern lid.

The button kits have also been designed to retro-fit to existing WCs which have paddle operated flush valves. For cisterns which have pneumatic or cable operated flush valves, or where the button screws in directly to the flush valve, then the flush valve will also need to be swapped to our TR9033 valve which has a 50.8mm base.

quality & service

As one of the UK's largest suppliers of bathroom products, we set very high standards in design, manufacture and service. We also invest heavily in product improvement and innovation to ensure complete customer satisfaction.

Damaged parts will be replaced with a spare part where possible, complete exchanges will only be made where it is not practical to do so.

We reserve the right to amend specifications at any time if an opportunity to further improve the product occurs. All dimensions quoted are within reasonable tolerances.

R2 furniture is designed for use within domestic installations which are adequately ventilated, and is not suitable for installations in wet rooms. As with any timber product, bathroom furniture will be adversely affected if it is subjected to excessive moisture. It is strongly recommended that adequate bathroom extractor fans are installed to prevent heavy condensation and all splashes and spillages must be mopped dry as soon as possible. All exposed or cut surfaces must be sealed with a suitable varnish or silicone sealant to prevent blowing. If this is not done, all warranty claims will be void. In particular, silicone sealant must be used around basin and worktop joints and around all edges of bath panels and plinths. All electrical products should be installed by an approved electrician in line with current wiring regulations.

All roomsets have been photographed to provide an artistic impression only.
