# arte form

collection 4.0

Retail price list including VAT

The Arte Form collection is a range of high quality European designed and manufactured brassware

designs that stand out from the crowd

# design

Design is the first part of the process towards producing an Arte Form product. With over 25 years' experience in the UK bathroom industry, we know a product not only needs to look good, it must withstand the rigours of everyday life.

Arte Form works in conjunction with several internationally renowned design houses including Studio P in Porto to produce a range of outstanding products that not only look stunning but perform exceptionally well.

Design is not only the finished form, it is the function too. At Arte Form we design each product to have as minimal an impact on the environment and natural resources as possible. This is not only in the daily use of the product, but also in the manufacturing process and minimising the impact of any waste – only then do we believe the product has been truly designed.

The WRAS approval logo is an **internationally** recognised **quality certificate** that has been **awarded** to many **Arte Form** products and components\*

\*Details on individual products /ranges available on request

We blend the precision of computerised machining in **lead free brass** and **stainless steel** with the experience of **craftsmen** completing the final stages of polishing, **hand finishing** and assembly – **new technology** working with age old **skills**.

# technology

Arte Form products include the latest **innovations** from **world class** manufacturers, including **Kerox** cartridges, **Fluhs** thermostats and **Neoperl** aerators

All Arte Form products carry a full **15 year guarantee\*** against any manufacturing defects. In hard water areas cartridges may need cleaning as part of regular maintenance.

\*See Terms & Conditions for full details of guarantee

## Unified Water Label

The Unified Water Label is a smart tool that provides a means to identify water-using products, with a common label that offers **clear, concise and easy to understand** messaging about water and energy consumption. A product label across Europe for all water using bathroom products.

Arte Form uses the latest **computer controlled** processes to **precisely** machine the component parts of each product, this means greatly **reduced energy** use compared to the traditional methods of casting molten brass. All waste raw material from this process is **recovered and recycled and re-used**.

# environment

Our **commitment** to the environment goes beyond just manufacturing – we use either **recycled** or fully recyclable material in our packaging, our brochure is printed on **recycled paper** using vegetable ink instead of conventional, petroleum-based inks.

Arte form work closely with all our supply partners to try and **offset** our environmental **impact** – our parcel deliveries are **carbon neutral**, up to **100% of our energy** is supplied from **renewable** sources.

Arte Form believe your perfect bathroom shouldn't cost the **earth**

NG.121CDN	Chrome	<b>£295</b>
-----------	--------	-------------

Arte Form Sensor taps offer contactless operation via the built in infrared sensor to help prevent the spread of germs, bacteria and viruses.

All Sensor taps are A rated 6ltrs per min by the Unified Water label scheme.

Mains fed electric supply is required and to be fitted by a qualified installer.

The sensor range has a single water feed that requires an In line thermostatic blending valve to regulate the temperature.

Flow Natural Brass is an un-lacquered finish which will develop a rich patina over time.

This organic process can be left to produce a truly individual finish to each piece. The original finish can be restored by simply cleaning with a suitable metal polish.

Flow Natural Brass is an un-lacquered finish which will develop a rich patina over time.

This organic process can be left to produce a truly individual finish to each piece. The original finish can be restored by simply cleaning with a suitable metal polish.

Simple yet clever. The Arte Form Bath Pull out shower kit has a small 'drip tube' that sits under the bath rim.

This catches any water residue from the handset or bath rim, and exits this residue via the handy connection to the waste pipe underneath the bath.

**BATH MONO FLOOR STANDING MIXER**

For Optional Packs see pages 140 - 143.

These valves feature a solid brass body with high quality FLUHS cartridges & Thermostats. They can be mounted either portrait or landscape to suit your design layout. The external trims and handles are machined from solid 316 Stainless Steel. The handles and trims are then machine brushed resulting in this timeless finish.

At the heart of every Arte Form thermostatic shower is the Fluhs cartridge – this world class German engineered cartridge guarantees safe and precise temperature for all of the family.

These valves feature a solid brass body with high quality FLUHS cartridges & Thermostats. They can be mounted either portrait or landscape to suit your design layout. The external trims and handles are machined from solid brass and then finished and assembled in the colours of your choice.

At the heart of every Arte Form thermostatic shower is the Fluhs cartridge – this world class German engineered cartridge guarantees safe and precise temperature for all of the family.

CT.513CE-1 Chrome **£295**

Cooltech shower valves feature an innovative system preventing the exterior from becoming hot during use.

Cooltech use Vernet thermostatic cartridges which provide precise temperature control.

Cooltech multifunction systems have height adjustable columns for flexible installation.

They feature easy clean shower heads to help prevent lime scale build up.

Metal hand set holders ensure long lasting performance.

Form and Quadra shower handsets incorporate push button to switch between spray patterns.

Simple yet clever. The Arte Form Bath Pull out shower kit has a small 'drip tube' that sits under the bath rim.

This catches any water residue from the handset or bath rim, and exits this residue via the handy connection to the waste pipe underneath the bath.

Increases fun, humour and intellect.

On/Off - White Light

Chromatherapy auto mode.  
Lights rotate through all colours.

Colour selection

Chromotherapy is the use of the visible spectrum, or colour light, to heal the physical and mental energy imbalance. It is one of the most holistic and simple methods to assist wellbeing.

\* Requires mains power and must be installed in compliance with IEE regulations by a fully qualified installer.

Waterproof IP65 rated.

**SKYFALL RAIN DYNAMO - AZURE LIGHT**

W:365mm x 365mm  
Minimum pressure 1bar HP

SH.329C Polished Steel **£1295**

The SKYFALL Dynamo heads require a mains electrical connection that must be installed to comply with IEE regulations by a fully qualified installer.

The light functions are automatically operated by the water flowing through the integral dynamo switch.

Dynamo Azure features a constant, calming blue light.

The Dynamo Chromatherapy version gently rotates through each of the colour options.

**SKYFALL RAIN DYNAMO - CHROMATHERAPY**

# TERMS & CONDITIONS

## DEFINITIONS

In these conditions ‘the Company’ shall mean Arte Form Ltd, ‘the purchaser’ shall mean the person, firm or company to whom any quotation is addressed or with whom any contract is made and ‘the goods’ shall mean the goods and/or services agreed to be sold by the Company to the purchaser.

## 1. QUOTATION AND ACCEPTANCE

- All quotations are given and all orders are accepted on these terms which shall apply to the exclusion of and shall override any other terms stipulated or referred to by the purchaser whether in its order or any other document, or in any negotiations or communication or course of dealing established between the Company and the purchaser;
- No modification or amendment of these terms or addition thereto shall be effective unless made in writing and signed by a director of the Company.

## 2. DESCRIPTION OF AND STATEMENTS AS TO

## GOODS

- Save where the goods are stated to be sold as complying with a recognised trade or industry standard, all descriptions, specifications, drawings and particulars of weights and dimensions submitted by the Company or otherwise contained in the Company’s catalogues, brochures, price lists, quotations and publicity materials are approximate only and the Company shall not be liable for their accuracy unless they are expressly incorporated into the contract in writing;
- These terms represent the entire agreement between the Company and the purchaser relating to the goods and such terms supersede and the purchaser shall not place any reliance upon any statements, recommendations and advice whether oral or in writing given (whether before or after the acceptance by the Company of the purchaser’s order) by the Company, its servants or agents as to any matter relating to the goods save where such statement, recommendations or advice is given in writing and signed by a director of the Company in response to a specific written request from the purchaser before or at the time of the Company’s acceptance of the order.

## 3. PRICES

Prices quoted by the Company are those in effect at the date of quotation. Unless otherwise agreed in writing, the Company reserves the right to increase prices when it accepts the purchaser’s order so as to reflect one or more of the following:

- any variation that may have occurred in the costs of labour, materials, suppliers overheads and transport;
- any change in duty, tax, surcharge or levy of any kind whatsoever affecting the sale price of the goods;
- any cost to the Company resulting from delay by the purchaser in giving to the Company information sufficient to enable it to supply the goods or provide the services or resulting from any alteration made at the request of the purchaser in the specification of the goods or in the place to which they are to be delivered or shipped;
- any extra cost to the Company resulting from the goods being carried at the request of the purchaser by mode of transport more expensive than the Company’s normal form of transport.

## 4. PAYMENT

- Unless otherwise agreed in writing, the price for the goods will be due and payable on the last business day of the month following delivery;
- The Company shall be entitled to charge interest on any part of the price which is not paid in accordance with clause (a) at the rate per annum of 3% above the Base Rate of HSBC Bank Plc from time to time;
- Time of payment is of the essence and if the purchaser defaults in punctual payment of the price the Company shall be entitled to terminate the contract and recover the goods at the purchaser’s expense without prejudice to any further rights which the Company may have;
- Any default in payment of an invoice or an instalment payment on an invoice on the due date shall render the entire balance outstanding on all invoices from the Company to the purchaser immediately payable in full without demand being made notwithstanding any contrary provisions as to terms of payment in any one or all invoices;
- If the purchaser fails to give all instructions reasonably required by the Company and all necessary document, licences, consents and authorities for forwarding the goods or is unable to accept delivery of the goods at the time when the goods are due and ready for despatch or delivery or shall otherwise cause or request delay, the purchaser shall pay to the Company all costs and expenses, including storage and insurance charges incurred or arising from such delay during which, at the Company’s absolute discretion if its storage facilities permit, the goods will be

stored at the purchaser’s sole risk. This provision shall be in addition to and not in substitution for any other payment or damages for which the purchaser may be liable in respect of his failure to take delivery at the appropriate date;

- The purchaser shall not be entitled to make any deduction from the price of goods which have been delivered to the purchaser in respect of any set off or counter-claim unless both the validity and the amount thereof have been expressly admitted in writing by the Company and such admission is signed by a director of the Company;
- In the absence of any specific appropriation by the purchaser, the Company shall have the right to appropriate any payment made by the purchaser towards the satisfaction of any invoice outstanding from time to time as the Company shall in its absolute discretion think fit.

## 5. DELIVERY

- Any time or date stated for delivery is given and intended as an estimate only and the Company shall not be liable for any loss or damage whatsoever resulting from any delay in delivery howsoever arising;
- Unless otherwise stated in writing delivery shall be deemed to take place upon the occurrence of the first in time of the following, namely:
  - the physical delivery of the goods to the purchaser at the Company’s works;
  - the physical delivery of the goods to the purchaser’s carrier or agent for the purpose of transmission to the purchaser or his nominee;
  - the physical delivery of the goods to the purchaser’s place of business or such other place as he may direct by the Company, its carrier or agent, the purchaser being responsible for unloading;
- Signature of the Company’s delivery note by any employee, representative or agent of the purchaser shall be conclusive proof of delivery;
- Where the contract provides for delivery by the Company, its carrier or agent:
  - any claims for non-delivery must be made in writing to the Company within three days of receipt of invoice or advice note whichever is the earlier;
  - any claims in respect of goods damaged in transit or shortages in delivery must be made in writing to the Company within three days of delivery; shortages in delivery shall not give rise to a right to reject the goods delivered;
- The Company shall be entitled to make partial deliveries or deliveries by instalments and all the provisions of these terms shall apply to such deliveries;

## 6. PROPERTY AND RISK

- Risk in the goods shall pass to the purchaser at the time at which delivery takes place in accordance with clause 5 above and the purchaser shall be solely responsible for insuring the goods thereafter;
- The Company shall retain ownership of and title in the goods delivered until full payment has been made in respect of all such goods. Until such time the goods shall be:
  - stored separately from other goods in the possession of the purchaser;
  - marked or otherwise rendered identifiable as being the property of the Company;
  - held by the purchaser as bailee of the Company;
  - held by the purchaser free from any charge, lien or other encumbrance;
- Provided the Company has not requested their return and notwithstanding that payment in full has not been made for all of the goods delivered, the purchaser as principal and not as agent for the Company shall be entitled to use the goods or offer for sale and sell them in the ordinary course of his business;
- Where the purchaser sells the goods prior to paying for them in full:
  - the Company shall be legally and beneficially entitled to the proceeds of sale;
  - the purchaser shall hold the proceeds of sale on trust for the Company and shall not mingle them with other monies and shall not pay them into an overdrawn bank account;
  - he shall deposit the proceeds of sale in a separate bank account, the location and number of which he has previously notified to the Company, and he shall not be entitled to use or deal with the proceeds of sale until payment in full for the goods has been made to the Company;
- The Company shall have the right at any time by its servants or agents to enter the purchaser’s premises where the goods are stored, or are thought the Company to be stored, so as to:
  - retake possession of the goods when the Company has requested their return and the purchaser has not immediately complied with the request, such retaking or return to be without prejudice to any other rights the Company may have arising there from;
  - inspect the storage of the Company’s goods which have not been paid for in full;
  - investigate and ascertain whether all these terms are being complied with;

## 7. GUARANTEE AND LIABILITY

Arte Form products have a 15-year guarantee.

A 3-year guarantee on painted finishes.

A 1-year guarantee on Skyfall LED light fittings.

A 1-year guarantee on hoses and O rings.

Our products are guaranteed against manufacturing defects from the date of purchase until the expiry of the relevant guarantee period shown above.

The guarantee is only valid if:

- The product is installed, used and maintained in accordance with the instructions and subjected to normal use.
- The defect is not due to use of an unsuitable or inadequate water or power supply.
- The defect is not due to accident, misuse, neglect or incorrect/inappropriate repair or damage caused by foreign objects or substances.

Under the guarantee period Arte Form will, at its option, offer to supply any replacement product (or component part) assessed to be defective. The guarantee is non-transferable to any subsequent owner.

All electrical components require installation by a qualified electrician and in the case of any claim certification will be required from the installer.

All claims under the guarantee should be notified in the first instance to our After-sales department. All claims must be accompanied by proof of purchase (sales receipt) from an official Arte Form dealer. The guarantee does not extend to any consequential loss or damage.

Save as provided herein and save in any case where death or personal injury has been caused by the Company’s negligence or any case where the Company is liable for a defect in the goods pursuant to Part 1 of the Consumer Protection Act 1987 or any statutory replacement thereof, the Company shall be under no liability whatsoever to the purchaser for any loss or damage whether direct, indirect or consequential arising out of any defect in, failure of or unsuitability for any purpose of the goods or any part thereof whether the same be due to any act, omission, breach of contract, negligence or wilful default in design, workmanship or materials or any other cause.

After repair or replacement, the relevant guarantee period will be calculated from the original date of purchase.

Arte Form operates a policy of continuous product development and therefore reserves the right to change the product, packaging and documentation specifications without notice.

### Aftercare and Cleaning

We recommend cleaning the product surface every day by wiping it using a soft cloth and water (whether it be in a chrome, stainless steel or painted finish). Take care to dry immediately any drops or water build-ups since they may lead to the formation of limescale deposits that could be difficult to remove at a later time.

Never use detergents, abrasives, solvents, chemicals, products containing muriatic acid, ammonia, acetone, bleach, household acids, various disinfectants, rough and/or metal scouring pads and/or sponges that may cause permanent damage to the product surface. (please refer to our website for further detail.)

### Cartridges and Thermostats

Care should be taken, particularly in hard water areas, to ensure that both cartridges and thermostats are regularly cleaned.

Failure to service these components can cause them to scale up and operate ineffectively and can invalidate the guarantee.

This guarantee is in addition to and does not affect your statutory rights as a consumer.

## 8. RETENTION OF TITLE

Ownership of goods shall remain in the Company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company’s right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

## 9. TERMINATION

The Company shall have the right forthwith to cancel the purchaser’s order if any of the following events occur and subject to enforcement of the Company’s rights to recover the goods and to receive payment of the price or damages, the contract shall be deemed to have terminated:

- the purchaser commits any breach of its obligations to the Company;
- any distress or execution is levied upon any property of the purchaser;
- the purchaser makes or offers to make any arrangement or composition with creditors or commits any act of bankruptcy or insolvency;
- any resolution is passed or petition presented to wind up the purchaser;
- a receiver or administrator is appointed or any chargee takes possession of all or any part of the undertaking or assets of the purchaser;
- the purchaser stops payment or ceases or threatens to cease to carry on its business or to pay its debts as and when they fall due;
- any remittance for payment of the whole or any part of the purchase price of the goods is dishonoured by the purchaser’s bankers.

## 10. ASSIGNMENT

The purchaser shall not assign or transfer or purport to assign or transfer any contract to

which these terms apply to any other person without the Company’s prior written consent. The Company reserves the right to subcontract the performance of the contract or any part of it.

## 11. FORCE MAJEURE

If the Company is prevented or delayed (directly or indirectly) from making delivery of the goods or any part thereof or from otherwise performing the contract or any part thereof by reason of war, embargo, riot, strike, lock-out, trade dispute, fire, breakdown of plant or machinery, inclement weather, interruption of transport, Government action, delay in delivery to the Company of any goods or materials, or by any cause whatsoever (whether or not of a like nature to the foregoing) outside its control, it shall be under no liability whatsoever to the purchaser and shall be entitled at its option either to cancel the contract or without any liability to extend the time or times for delivery by a period equivalent to that during which such delivery has been prevented.

## 12. RETURNS PROCEDURE

**Note to retailers:** We do not operate a sale or return policy. However, in the event that you need to return products to us for any reason the following procedure should help to ensure that we handle your request efficiently.

Please note goods which are no longer required and that have been held by you for longer than three months from date of invoice cannot be considered for return and credit. A Collection Note should be emailed to our Collections Department:

- e-mail: [collections@arteform.co.uk](mailto:collections@arteform.co.uk)

We require the following details in order to process the necessary paperwork: Item stock code, finish and quantity of item(s) to be returned, the relevant Invoice Number or Delivery Note Number and the reason for return of the item(s). Our Collections Department will process the paperwork and after the collection request has been authorised, we will aim to collect the item(s) within 5 working days. You will also receive a Returned Goods Authorisation Note. The details of this note need to be checked and signed by you. If you have any queries whatsoever regarding the collection, please telephone our Collections Department.

All goods are to be suitably packaged before return to Arte Form Ltd, i.e. presentation boxes packed inside an outer box. Goods received back in anything other than re-saleable condition, may result in a request for credit being refused.

With the exception of faulty or damaged goods, all goods being returned will be subject to a 25% re-stocking charge with a minimum £15 charge being applicable. If items are received damaged or faulty no charge is made for returning the goods to us. Please note: shortages and damages must be notified within 2 days of receipt of goods.

Notification outside of the 2-day period will void any claim. If, after our inspection, a product is found to be defective due to a manufacturing fault we will issue a credit or a free of charge replacement.

Our collections department will liaise with your designated contact, confirming the total number of boxes packed ready for collection and a mutually convenient collection date will be arranged.

## 12. CLAIMS FOR RE-FIXING

In the event that you have a claim for re-fitting or repair of a faulty product, please contact our Technical department on 01767 679172. All claims for re-fixing charges must be authorised by us before any work is undertaken. Claims for re-fixing that are made after work has been undertaken will be rejected.

## PROPER LAW

The contract and these terms shall be governed by English law and the purchaser shall submit to the sole jurisdiction of the English Courts.
