# Welcome to RadiatorValvesUK

**We are specialists in offering the largest selection available on the UK market for bulk supplies of radiator valves, heating elements, and a range of traditional radiators. For both OEM, distributors and trade customers across the UK and Ireland as part of the Heating, Plumbing and Joinery division of the Brickability Group PLC.**

## TRV Valves

A wide range of modern and traditional TRV valves in popular colours and finishes to suit every style of radiator. Each range is offered in straight, angled and corner variants.

## Manual Valves

Radiator Valves UK's range of manual valves offered in straight, angled and corner variants. Also available in round, square and crosshead valves. Supplied in pairs throughout.

## Electric Elements

Standard electric elements are available in 150w, 300w & 600w. Our Smart Thermostatic range combines high quality manufacturing with temperature control and is an ever more popular choice with end users.

## Accessories

Pipe sets, T-Pieces and Element cable shrouds are available in several finishes and colours to compliment any style of radiator installation.

## Dual Fuel Valves

A huge leap in both design and shape being able to offer our Manual and TRV Dual fuel valves convert existing central heating towel radiators to dual fuel, without modifying pipe work and pipe centres.

## Traditional Radiators

Radiator Valves UK's traditional towel radiators are available in three sizes. A stunning addition to any bathroom decorated and fitted out in a classic style. Chrome plated with a stunning central white radiator section perfectly complements this style of bathroom which is so popular today. We have a central heating option and electric / dual fuel option.

Technical Information

# What's New

## Shut-Off Valves

### Sold exclusively by Radiator Valves UK

Introducing our new innovative and patented solution which eliminates the need to drain a central heating system when disconnecting or repositioning a radiator.

Save time, money and be kind to the environment!

Our shut-off valves work with Manual and TRV valves and carry a 10-year warranty. A truly innovative solution that saves you time, money, and is environmentally friendly as the rust inhibitor in your central heating system does not need to be flushed away into the drains. A QR code comes with every pair and can be applied to the radiator or the valves which will advise the plumber that the heating system does not need to be drained and the radiator can be removed easily without water spillage.

An easy-fit small product with a BIG impact!

## Auto Auto Vent

Fitted to the top of central heating or dual fuel towel rails, our automatic air vent will allow any build-up of air to seep out slowly and silently through the valve, enabling the water level to rise and close the mechanism again. This removes the need to bleed radiators manually and keeps radiators fully heat generating and efficient.

SEE PAGE 30 FOR TECHNICAL INFO

Auto Vent

Product Code: 690384

**£15.00**  
inc. VAT

## Air Vent and Plug Sets

1/2" BSP Thread. Coordinate your Air Vents and Blanking Plugs with your radiator and valve set to create the perfect neat finish. Sold as individual sets in 14 finishes.

SEE PAGE 15

SEE PAGE 31 FOR TECHNICAL INFO

## Chelsea Black Handles

Our Chelsea valves are now available with a black handle option pack, made of a durable and attractive composite.

SEE PAGE 9

## 18mm x 130mm Pipe Sleeves

Radiator Pipe Covers are the perfect way to finish off your radiator or towel rail installation and give your heating setup a final touch of elegance.

We have a new range of 18mm sleeves available.

SEE PAGE 16

SEE PAGE 20 FOR TECHNICAL INFO

## New Finishes

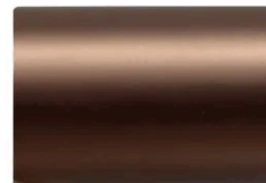

We have introduced two new finishes across our range. Our **Brushed Gun Metal** and **Brushed Bronze** finishes reflect the growing popularity of these colours with consumers. You can find them in the following ranges:

### Valves

- Modern TRV Valves
- Manual Round Valves
- TRV Dual Fuel Valves
- Manual Dual Fuel Valves

### Accessories

- 18mm Pipe Sleeves Sets
- Modern Element Shrouds
- Vent and Plug Sets

## Dorset Traditional Radiator

The Dorset, with its classic design, exudes luxury and timeless elegance. Ideal for cloakrooms, bathrooms, and kitchens where space is at a premium. It features a traditional towel rail that extends over the radiator, allowing you to hang your towels to dry.

# Digital Elements

**Standard UK Specification electric elements are available in 150w, 300w & 600w variants. Our Smart Thermostatic range combines high quality manufacturing with temperature flexibility and is becoming an ever more popular choice with end users.**

*Chrome T-Pieces **not** included. See page 17 for our T-Piece options.*

*Prices are inclusive of VAT & carriage applies for orders under £500 at £6 for delivery within 48hrs.*

## Elements | Fixed temperature

Standard UK Specification cation heating elements to convert new or existing towel radiators to electric or dual fuel installations. Our selection of power outputs cover most sizes of towel rails. T-Piece **not** included - See our T-Piece options on page 17.

### UK Electric Element 150w

Product Code: 690071  
**£58.76**

### UK Electric Element 300w

Product Code: 690072  
**£61.10**

### UK Electric Element 600w

Product Code: 690073  
**£65.77**

## Digital Thermostat

### Functionality

The heater offers five temperature settings from 30 °C to 65 °C. An electronic temperature sensor ensures precise temperature control. The device displays the temperature to which it is currently set, and indicates the status of the heating cycle. Comes with 2 hour boost, 12/24 hour recurring timer.

### Safety

The heater has an active safety feature which initiates in the event of dry radiator operation. The heating element is equipped with a temperature sensor and thermal fuse (double overheating protection) and offers frost protection (ANTIFREEZE). The heater will display warning indicators in the case of malfunction.

#### CHROME

##### Element 300w

**£169.59**

# Traditional Radiators

Traditional towel radiators available in three sizes. Mild steel, chrome plated with a central white radiator. Columbine is available in central heating and electric / dual fuel options, Dorset is in dual fuel and Leo in central heating only.

Prices are inclusive of VAT and carriage applies for orders under £500 at £6 for delivery within 48 hours.

CHROME and WHITE RAL 9016

### Leo | Central Heating

965(L) mm x 540(W)mm  
 Rail Protrusion: 230 mm  
 Output: 555W | 1894 BTU/hr  
 Outputs based on  $\Delta t60^{\circ}\text{C}$

Supplied on pallets of 12

Product Code: 690070  
**£525.00**

CHROME and WHITE RAL 9016

### Dorset | Dual Fuel

1510(L) mm x 510(W)mm  
 Rail Protrusion: 235 mm  
 Output: 723W | 2466 BTU/hr  
 Outputs based on  $\Delta t60^{\circ}\text{C}$

Supplied on pallets of 12

Product Code: 620927  
**£699.00**

CHROME and WHITE RAL 9016

### Columbine | Central Heating/Dual Fuel

963(L) mm x 673(W)mm  
 Rail Protrusion: 230 mm  
 Output: 1032W | 3521 BTU/hr  
 Outputs based on  $\Delta t60^{\circ}\text{C}$

Supplied on pallets of 10

Central Heating Product Code: 690068 <b>£567.00</b>	Dual Fuel Product Code: 690069 <b>£646.80</b>

## MATCHING ACCESSORIES

### Manual Round | Straight Crosshead

Product Code: 690038  
**£44.41**

### Manual Round | Angled Crosshead

Product Code: 690037  
**£44.41**

Cable Shroud  
 Product Code: 690058  
**£56.10**

TRADITIONAL RADIATORS

# Technical Information

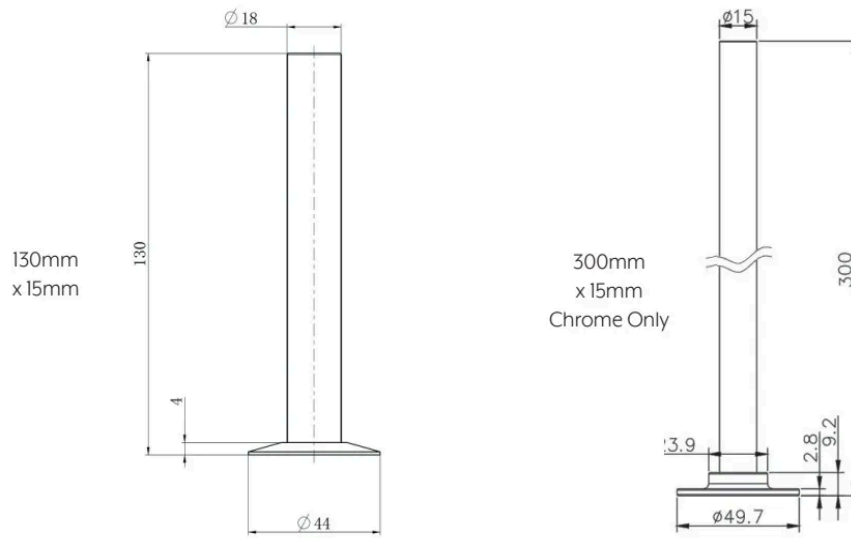

All valves are air tested in water at time of production and have a 5 year warranty from manufacturing defects. All elements have a 2 year warranty from manufacturing defects.

We retain the right to be able to replace a product but cannot be held liable for any installation costs or damage therein.

TECHNICAL INFORMATION

## Pipe Sets

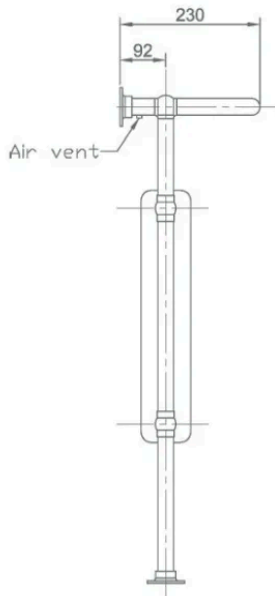

## Element Shroud

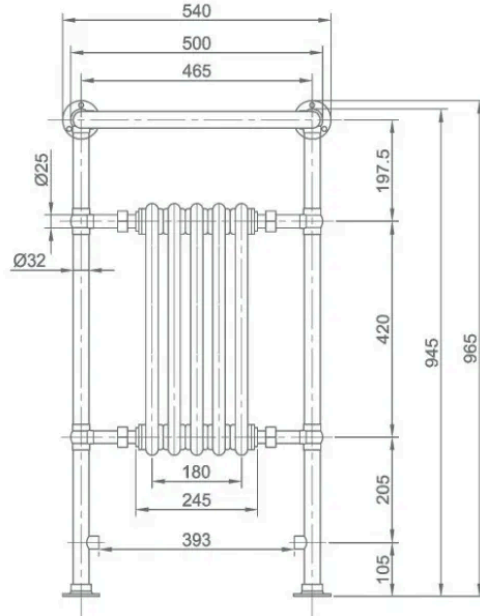

# Traditional Radiators

## Leo Central Heating

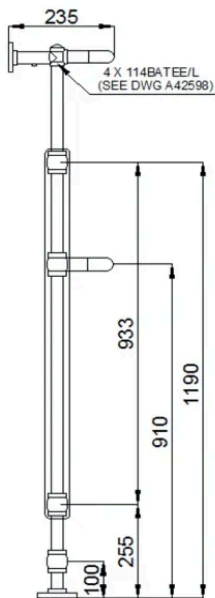

963(L) mm x 673(W)mm  
Rail Protrusion: 230 mm

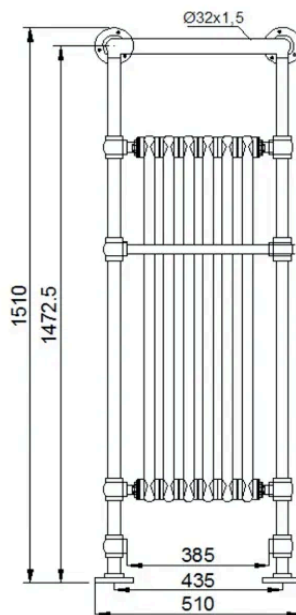

Output: 555W | 1894BTU/hr  
Outputs based on  $\Delta t60^{\circ}\text{C}$

Colour: Chrome and White RAL 9016

## Dorset Dual Fuel

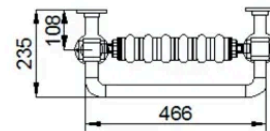

1510(L) mm x 510(W)mm  
Rail Protrusion: 235 mm

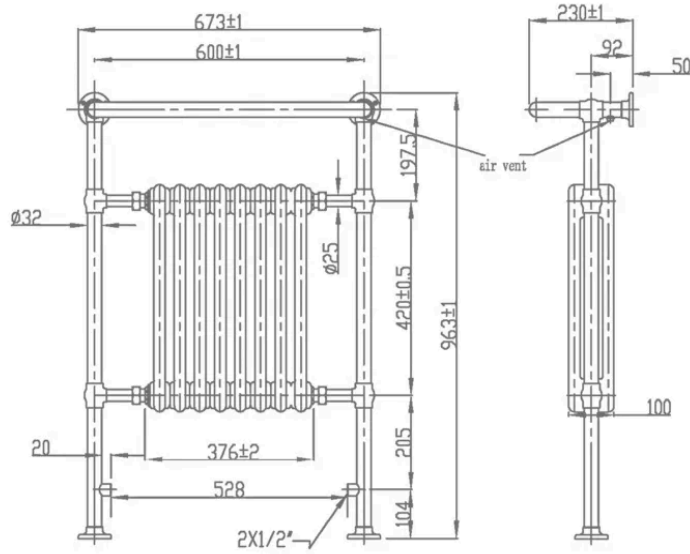

Output: 723W | 2466 BTU/hr  
Outputs based on  $\Delta t60^{\circ}\text{C}$

Colour: Chrome and White RAL 9016

### Columbine Central Heating

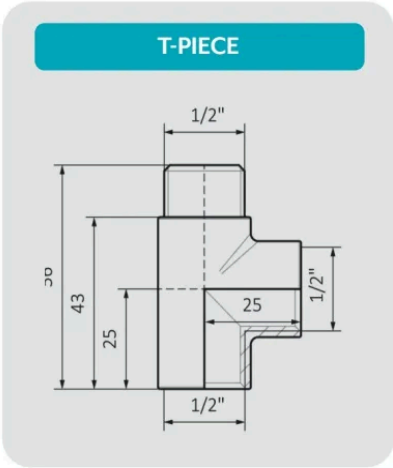

965(L) mm x 540(W)mm  
Rail Protrusion: 230 mm

Output: 1032W | 3521BTU/hr  
Outputs based on Δt60°C

Colour: Chrome and White RAL 9016

TECHNICAL INFORMATION

**CHROME ELEMENT SHROUD**

*For Columbine Dual Fuel: A neat matching fixed temperature heating element shroud that fits over the element head and cable creating superb, tidy finished look to the radiator installation.*

## Columbine Dual Fuel

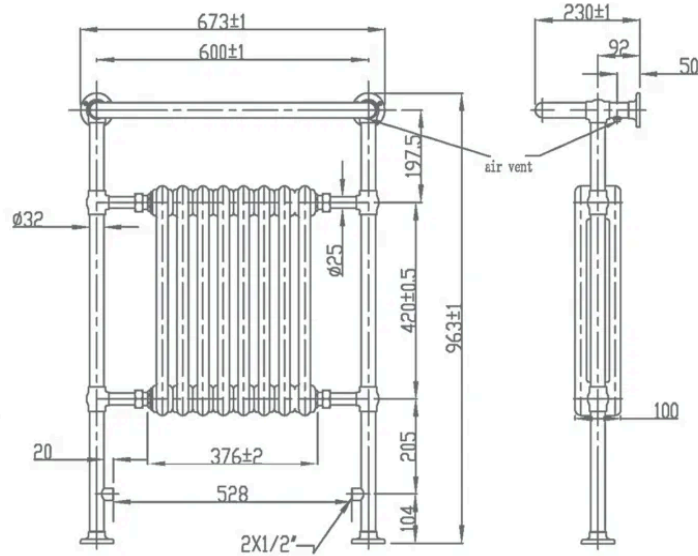

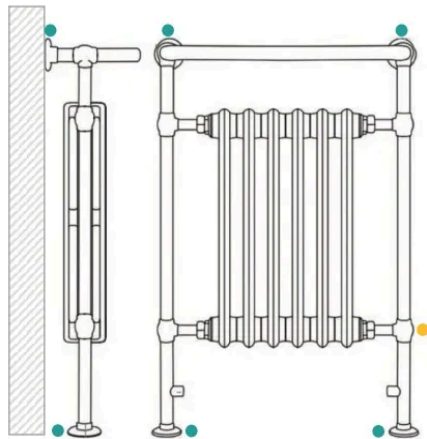

965(L) mm x 540(W)mm

Rail Protrusion: 230 mm

Output: Dependant on element used

Colour: Chrome and White RAL 9016

- Features a discreet removable element nut for easy conversion to electric or dual fuel operation.

- Flange position on all models
- Removable nut location on dual fuel / electric models for element insertion.

**We provide a 10-year guarantee against faulty workmanship or materials (excluding serviceable parts) providing they have been installed, cared for and used in accordance with our instructions:**

1. Remove radiator and fixing kit from box.
2. Fix the top flanges to the radiator and secure with grub screw located underneath the rail. (if supplied, flanges are loose in the box)
3. Offer the radiator up to the wall in the required place. Note: The radiator must be fitted against a flat wall and floor.
4. Mark out the hole positions for the screws on the wall and floor. There are 3 holes in each flange, or one brass fixing peg. (These come fitted into flanges on some models)
5. Drill holes in the wall and floor to suit the rawl plugs provided.
6. Fit the rawl plugs into the wall.
7. Remove the top flanges from the radiator by means of the grub screw underneath the rail (only applies to radiators with removable flanges).
8. Screw the top flanges to the wall in the correct position. (alternatively, screw the fixing pegs to the wall and floor)
9. Push the radiator back into the flanges and tighten the grub screws (or push over fixing pegs)
10. Screw the radiator to the floor through the bottom flanges (or tighten grub screws onto fixing pegs)
11. Hudson Reed radiator valves (not supplied) need to have a substantial length of PTFE tape wrapped around the thread, and then be screwed into the radiator inlets (this is to create an adequate water seal as per good plumbing practice).
12. Ensure that the inlets on the valves are pointing down towards the floor.
13. The copper inlet pipes are fed into the valves through the floor and are secured to the valves by lightening the nut up (the copper olive will make a watertight seal).
14. Check for leaks.

# Thermostatic Valves

Thermostatic valves are typically used for regulating the fluid of the radiators of central heating systems. They are provided with a regulating element which automatically controls the opening of the valve to keep the ambient temperature of the room where they are installed constant at the set valve.

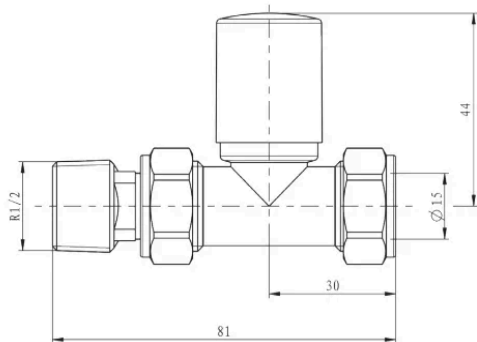

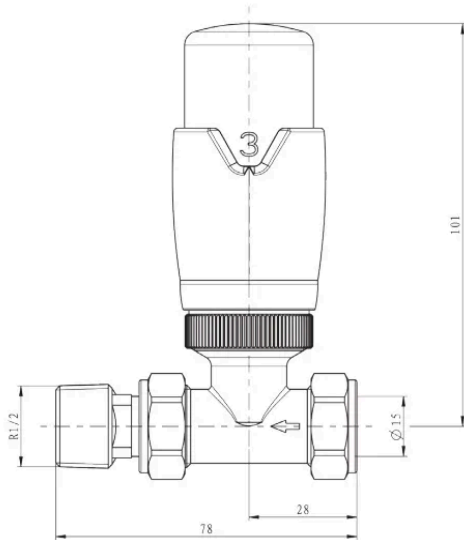

The number in the valve corresponds to a specific air temperature. Once you have selected a number, thermostatic valve will maintain the temperature. This prevents unwanted temperature rises and achieves considerable energy saving.

- Thermostatic head and reversible bi-directional body
- Built in sensor with liquid element
- Graduated scale from 0 to 5 corresponding to temperature setting ranges from 7°C to 28°C with frost protection setting →
- Fully tested to 10 bar
- Max pressure difference: 0.8bar
- Nominal flow rate 173kgs/h
- Max flow temperature 120°C
- Can be mounted horizontally or vertically

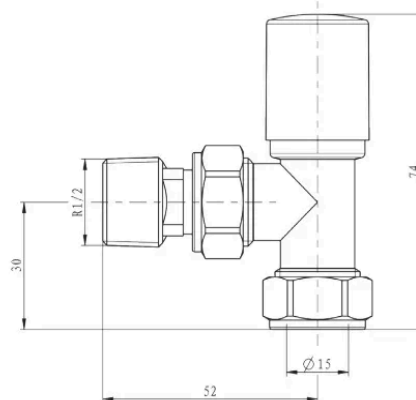

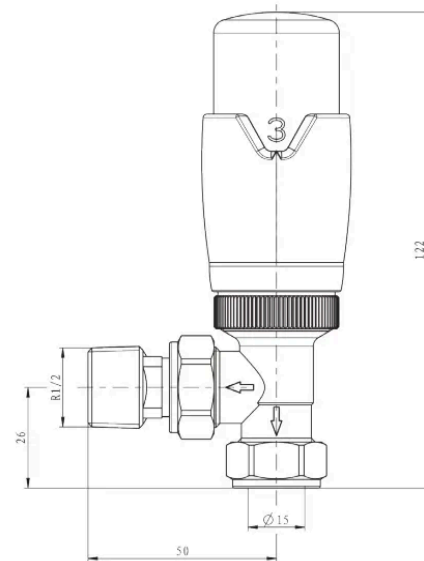

0	1	2	3	4	5
7°C	11 - 13°C	15 - 17°C	19 - 21°C	23 - 25°C	29 - 29°C

### Product Information

Valve to radiator Valve to Pipe Sensor  
 Type Material: Brass Warranty: 3 Years  
 1/2"  
 15mm Compression  
 Liquid Sensor  
 Response Time: not exceed 40 Mins  
 Hysteresis : <1 K  
 Weight: 825g  
 Weight boxed: 836g  
 Bi-Directional Valve Body  
 With Frost Protection: When the scale is set "❄"

### Pressure Rating

Max Test Pressure: 10 Bar  
 Max Pressure differential: 0.1 Mpa

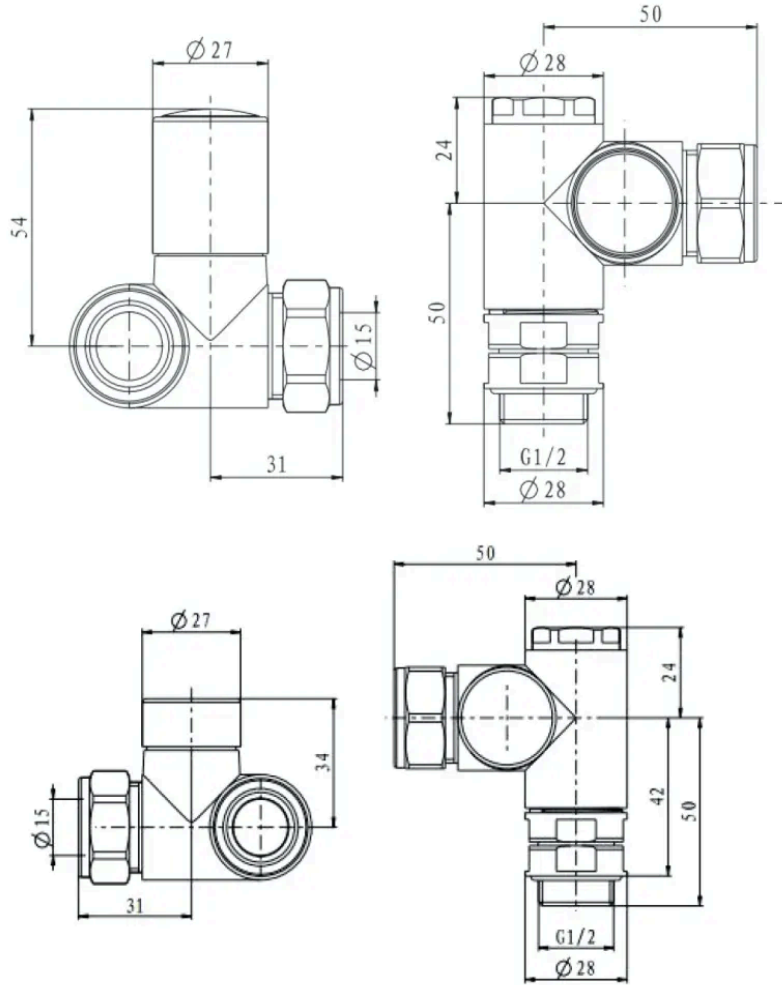

### Temperature Ratings

Max flow temperature: 120 °C  
 Temperature adjustment range: 7-28  
 Differential pressure influence: <1 K  
 Max ambient temperature: <1.5 K  
 Water temperature effect: /

### Flow Ratings

Nominal flow rate: Min setting 212.1 kg/h, when the temperature is on 6.3 °C.  
 Max setting 210.1 kg/h, when the temperature is on 28.83 °C.  
 Max Flow Rate 173 kgs/h

## Dual Fuel Corner Valve w/ Element Shield

### Product Information

Valve to radiator      Warranty: 3 Years
